

## REQUEST FOR PROPOSALS

Project: William Bryant Park Complex pool filtration and feature upgrades.

Scope:

- Remove and replace all filtration equipment at Kiddie Pool- include labor and equipment.
- Remove and replace all filtration equipment at Lap Pool- include labor and equipment.
- Remove and replace Rain Drop Kiddie Pool Features- labor only.
- Replace Kiddie Pool feature pump equipment and valves- include labor and equipment.

Include alternate for Lap Pool and Kiddie Pool UV sanitation systems.

Special Notes: MCCPRA to provide dumpsters. Play feature equipment purchased separately by MCCPRA through Rain Drop.

Please refer to attached page 2 for complete equipment list.

COI, E-verify affidavit, and W-9 required.

Please submit proposals to Maggie Davidson at 1020 4<sup>th</sup> Street SW Moultrie, GA 31768 or by email at [maggie.davidson@mccpra.com](mailto:maggie.davidson@mccpra.com) by October 25, 2024 at 5pm.

Contact Maggie Davidson or Shyanna Corman at (229) 668-0028 for more information.

Thank you,

Maggie Davidson

## **William Bryant Park Complex pool filtration and feature upgrades equipment list.**

### **Kiddie Pool:**

- 1 – 7.5HP Pump, 375 GPB @ 60 TDH
- 1 – 7.5 Altivar VFD
- 1 – SMD1600 63” WaterCo sand filter
- 1 – MPV 4” flanged valve
- 1 – BECSys5 chemical controller w/flow switch  
1Gbit ethernet w/E2 connect
- 1 – BECSys water level sensor
- 1 – F30400 4” flow meter
- 140 – filter media bags
- 9 – filter media gravel bags

### **Kiddie Pool Feature Equipment:**

- 2 – EQKT1500 15HP pump
- 2 – 15HP VFDs

### **Lap Pool:**

- 1 - 10 HP Altivar VFD
- 1 – SMD2000 79” Waterco filter
- 1 – MPV 6” filter manifold
- 2 – 6” piping & manifold supports
  - 1 – BECSys5 chemical controller w/flow switch
- 1Gbit ethernet w/E2 connect
- 1 – BECSys water level sensor
- 1 – F30600 6” flow meter
- 173 – filter media bags
- 33 – filter gravel bags

### **Lap Pool UV:**

- 1 – 2.2KW dual lamp – 230V, 939 GPM UV System

### **Kiddie Pool UV:**

- 1 – 2.2KW 1 lamp – 230V, 431GPM UV system
